Good for you, I am glad to know you might reengage after a break. I think despite some of the policy redirections, there are really some excellent opportunities ahead – thanks to new data, science, technology, and some new thinkers in the mix!

Hi Tina

Ex. 6 Personal Privacy (PP)

My boss, David Morin, Director General, Safe Environments Directorate, Health Canada is running a competitive process. In the meanwhile Deborah Ratzlaff will be acting for me. She is with my Bureau now as part of an assignment with the Health Canada Science Management Development Program and knows the CMP world well (her background is in new substances assessment and control)

Subject: RE: Question about IRIS Program

Good Morning

I wanted to flag how much Health Canada appreciated having Kris with us for the day on Friday.

We learned a lot and will definitely stay in touch.

Thank you!

Christine

Subject: RE: Question about IRIS Program

Hi Christine,

I am copying Kris on this email. Feel free to reach out to her directly on the IRIS front and with regard to her efforts to operationalize systematic review cross in our assessment practice. I am sure she will be glad to provide a seminar.

Thanks,

Tina

Subject: RE: Question about IRIS Program

Hi Tina

I've heard Kris Thayer talk etc but we haven't met. Should I reach out directly to her on the IRIS front?. Would she consider giving a seminar to a group of Health Canada staff interested in this. We could we invite her to Canada for a day - an update of your work on systematic review would be helpful to us too. Let me know how to proceed.

Thanks Tina.

Subject: RE: Question about IRIS Program

Hi Christine,

Yes, IRIS is in my Center (NCEA). The Director of the IRIS Division is Kris Thayer. Do you know her? She can talk about prioritization – as can others. Also I was telling Angelika (through Abdel) that on vulnerable populations we can also help there – from the scientific (versus statutory) perspective in assessments.

Subject: Question about IRIS Program

Tina

Is the IRIS program within your organization? We are looking to learn how IRIS does its priority setting as we are trying to set up a broader priority setting framework that could inform a risk assessment workplan that would focus on meeting broader departmental needs. We would love to invite someone to come up and speak to us about this.

Also thank you again for your Centre's fantastic exposure training series....I sat in on much of the last session and I really enjoyed it. We owe your team a big favour😊
